

HYDRARGAN

Organic gold from Marroco

INCI NAME:

Argania Spinosa Oil

DOSE OF USE:

3%-5%

SOLUBILITY:

LIPOSOLUBLE

COSMETIC USE:

- › Nutritive and smoothing treatments
- › Stressed and uncomfortable skins
- › Protective treatments, against external aggressions (sun, wind, cold)
- › Anti Free Radical, anti-aging, regenerative products
- › Non comedogenic. It is absorbed faster than other natural oils by the skin

DESCRIPTION:

DEODORIZED ARGAN OIL FOR COSMETOLOGY

Pure, ecological, chemical-free and odor-free cosmetic active ingredient.

Raw material approved by ECOCERT GREENLIFE, conform to the ECOCERT Natural and Organic Cosmetics Standard.

Argan oil presents an exceptional percentage of essential fatty acids, the main one is linoleic acid (omega 6, the most essential of all) ensuring the functions of repair and defense of the skin.

They stimulate intracellular oxygenation and thus improve the restoration of the hydrolipidic film by increasing the nutriment content of cutaneous cells and ensuring the indispensable moisture of the skin.

Once Hydrargan is applied to the skin, it will quickly penetrate without leaving a greasy or shiny trace.

In fact, its effect is completely the opposite as it leaves the skin soft with an extraordinary sensory feeling. As a body care product, the oil is ideal for massages and it is also suitable for hair care products.

PROPERTIES:

HYDRARGAN IS INDICATED FOR:

- ✓ Preventive anti-ageing care, because of its excellent anti-free radical effect.
- ✓ Improvement and enhance healing of stretch marks thanks to its regenerating ability.
- ✓ Sebum regulating action for greasy skins.
- ✓ Nutritional effect on dry skin with a tendency to eczema by helping to restore the cutaneous barrier.

COMPOSITION:

Fatty Acids:

- › Saturated Fatty Acids: 15-21,5%
- › Mono-Unsaturated Fatty Acids: 45-55%
