## COBIO SA BOOSTERS PROPOSAL:

### 1. BRIGHTENING BOOSTER

#### Cobiobright & Cobio-αHa

Synergic combination of Alpha Hydroxy Acids and moisturizing agents from **COBIO-αHA** strengthened with the brightening activity of **COBIOBRIGHT**. Extracted from the pulp of Pouteria Lucuma, an exotic fruit from Peru, considered a superfood, COBIOBRIGHT has shown to improve skin luminosity by 49 %. **Skin tone improvement, decreasing fine lines and bringing about a healthier and more youthful appearance. Boosting skin's luminosity and radiance.**

### 2. ANTI-POLLUTION BOOSTER

#### Cobiodefender EMR & Cobiobalance

**COBIODEFENDER EMR**, first active ingredient focused on **reducing biological skin disorders** resulting from exposure to EMR (Electromagnetic radiation), neutralizes the **harmful effects of electronic pollution**; Counteracts the aging effects of electromagnetic waves preventing skin oxidation. It helps in the restoration process of the skin being a specific **anti-stress agent**. **COBIOBALANCE**, Yacon extract from Peruvian origin, is a prebiotic complex rich in β-Fructo-oligosaccharides (FOS). **COBIOBALANCE** protects and benefits the **healthy skin microbiota from daily aggressions**, preserving, reinforcing, maintaining, and rebalancing the skin microbiota barrier, **improving skin's comfort and well-being. Boosting skin's protection.**

### 3. REDENSIFYING BOOSTER

#### Cobioage & Oceovital GAG

**COBIOAGE**, peruvian extract from Tara pods, is rich in bioactive compounds: flavonoids, polyphenols and tannins. Provides this BOOSTER combination with **anti-wrinkle, redensifying and firming activity** due to its ability to inhibit elastase, hyaluronidase and collagenase, and thanks to its **elastin stabilizing effect** and its capacity to **induce collagen synthesis**. **OCEOVITAL GAG** brings a powerful complex of polysaccharides combining the actions of marine Glycogen and Glycosaminoglycan, **essential for the support of the collagen and elastin fibers, reinforcing the skin structure. Boosting skin's re-structuration.**
